At BBF IT GmbH, building complex low latency systems and handling large data are key to our business. We are a small Vienna based company specialized in the design, development and maintenance of customized solutions for the FX interbank market as well as business intelligence services. More recently, we have also been focusing our attention on (social) media analysis.

— WE ARE SEEKING —

Junior Python Software Engineer (m/f)

We are hiring a skilled Software Engineer to support our Data-Science- and Machine-Learning-based research and development activities.

ABOUT THE POSITION

Together with our Data Scientist, you will work on the Python backend powering our analytics applications. This includes your smart ideas and:

> Specification, software development and design, code review, testing and deployment

> Prototyping for evaluation purposes as well as implementation of production-ready trading and analytics systems

> Tooling: Python 3.7, SciPy stack, pytest, git, GitLab, …

ABOUT YOU

As a suitable candidate you have:

> At least 1 year of coding experience in a business-like environment

> A soft spot for best practices and clean code together with good Python and database knowledge

> Solid quantitative skills or a degree in Computer Science, Statistics, Mathematics or a related area and/or a strong interest in developing frameworks driving Data Science / Machine Learning applications

> Willingness to contribute to a small team, ability to work independently in a structured and timely fashion

ABOUT US

You will work closely with a small and agile team within a flat hierarchy and start with a supervised training period. After successfully introducing new features, you will be able to evaluate its impact in a live system and directly observe the result of our combined efforts.

Different possibilities with regards to the contract (permanent position, full- and part-time, at least 30h/week) can be discussed. According to the IT collective agreement, the minimum salary for this position is € 2.393,– (full-time). With an overpayment option, your actual salary will depend on your professional profile and ability.

YOUR APPLICATION

If you are interested in the position and think you are a good fit, we would love to hear from you! To apply, please send your CV and cover letter (in German or English) to

claus.aichinger@bbf-it.at
